Summary

I'm a dedicated developer who constantly works to improve his skills by learning new programming languages, frameworks, technologies, and staying up-to-date on the latest industry trends. I take pride in contributing to the development and maintenance of software that has practical applications, while always seeking ways to improve my code and tackle the challenges I encounter.

My Projects

- **Blogger**
  - Developed two versions of this web page — vanilla JavaScript and React, styled with CSS
  - Front-End development
  - Component based architecture
  - Interactive user interface design

- **Asteroid Game**
  - An arcade-style asteroid game using JavaScript and HTML5 Canvas
  - Game physics and Collision detector
  - Smooth animation
  - Responsive controls

- **Bubble Screensaver**
  - An interactive bubble screensaver using JavaScript and HTML5 Canvas
  - Realistic Object interactions
  - Dynamic color transition
  - Bubble pop responsively on mouse interaction
